Espresso Feeling

## Enjoy your Espresso Feeling.

Espresso has always been more than a beverage. Its aroma, its intensity, its countless delicious variations, its joining spirit – a good espresso is a celebration of life itself. Starting in Italy this unique feeling has sparked a café culture that today is lived and loved all around the world.

With the Saeco Syntia you can experience this Espresso Feeling in your very own kitchen, which will surely become your favourite place to spend quality time with your family. From the peaceful Sunday morning breakfast to the relaxed afternoon coffee time – what could be better than having your own stylish café right there?

Just push the button and enjoy a premium taste experience made from freshly ground coffee beans. And you can forget throwing away pads or pods all the time. Rather take a moment to just enjoy the sight of the Syntia as its stainless steel housing and compact design fits perfectly into your kitchen décor.

Discover the authentic espresso enjoyment and all the other highlights of the Saeco Syntia – your way to your personal Espresso Feeling.

## The best technology for a perfectly Italian espresso.

With a fully automatic coffee machine by Saeco, all you have to do to enjoy a perfect espresso is push a button. The machine that's so easy for you to use is actually the result of 25 years of constant engineering work.

Just like an espresso is the melange of countless nuances complementing each other, every Saeco fully automatic coffee machine is a combination of perfectly synchronized technological features. The ceramic grinders for untouched

coffee taste and the Saeco Pre-brewing Technology extracting each and every ounce of the coffee beans' aroma, Opti-Dose to individually set your amount of ground coffee and the convenient removable brewing group (a Saeco invention) with 5-year-warranty – all these milestones were developed to furthermore enhance your enjoyment.

Together they bring fresh coffee beans to life, extract their very last ounce of taste and enable you to enjoy perfect espresso at home – as if you were sitting in your favourite street café.

# 25 years of innovation.

**1985**  
**A premiere**  
Saeco presents the first fully automatic coffee machine with removable brewing group.

**1989**  
**The TWIN**  
Two cups of delicious coffee can be prepared simultaneously – for the first time ever.

**1994**  
**Introducing Magic**  
By 1996 already a major seller.  
**Heating space for cups**  
A carefully thought out idea for long-lasting cremas and delicious flavour.

**Brewing group 2nd generation**

**1996**  
**Cappuccinatore**  
Splendid milk froth at the push of a button. Simply by inserting the hose into the milk container, deliciously creamy milk froth lands in the cup.

**1998**  
**Digital display**  
Saeco produces the first fully automatic coffee machine with an electronic interface.

**Saeco Pre-brewing Technology**  
To ensure that the aroma can unfold even better, the ground coffee is moistened before the actual brewing process.

**2001**  
**Incanto Line**  
The smallest fully automatic coffee machine of its class developed by Saeco.

**2003**  
**SBS Saeco Brewing System**  
Simply by turning the knob you can prepare the crema exactly according to your taste. A little knob that makes a big difference.

**2004**  
**Sensitive Touch**  
Another innovation from Saeco: the first fully automatic coffee machine with touch-screen interface.

**2004**  
**Ceramic grinders**  
For consistently accurate grinding, perfect taste and supreme longevity.

**Brewing group: 3rd generation**  
Its capacity is increased – but it's now even smaller than ever before.

**2006**  
**Primea Line**  
A new era of indulgence starts with unique innovations, unparalleled design and the finest espresso taste.

**2006**  
**Talea Line**  
Saeco's exclusive design language is expertly integrated in the newest line of machines.

**2007**  
**Odea Line**  
All good things come in threes: the next line appears in Saeco's unique new design – it's young, fresh and compact.

**2007**  
**Saeco Adapting System**  
After preparing just a few cups, this feature automatically adapts itself to every type of beans – and always grinds the ideal amount.

**2008**  
**Energy Save**  
As little energy as possible is needed. Auto stand-by ensures that less than 1 W/h is consumed.

**2008**  
**Xsmall Line**  
The smallest member of the Saeco family perfectly combines design and functionality.

**2009**  
**Syntia Line**  
The new easy-to-use 3-colour icon display is premiered in Saeco's brand new sleek design – opening a new era of aesthetically pleasing innovation.

**2009**  
**Xelsis Line**  
The ultimate in elegance and convenience. The new Touch Interface gives consumers one-touch-functionality combined with elegantly haptical surfaces.

## The freshest coffee enjoyment every time.

The basis for superior Italian espresso is freshness – at all three relevant elements: fresh coffee beans, pure water and milk, for cappuccino lovers. With Saeco you can rest assured that everything is as tasty as if it were being prepared in the finest café.

### Aroma seal – perfectly preserved coffee

The Syntia's coffee bean container is equipped with an airtight silicon sealing and a UV-proof cover. This way the beans are protected from oxygen and their aroma is kept fresh right until they are ground for your next espresso experience.

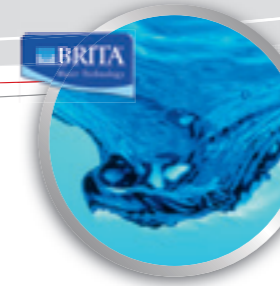

### Ceramic grinders – perfectly ground coffee

This high-tech feature guarantees consistently accurate grinding for every coffee blend, additionally it never overheats the beans. Combined these two advantages deliver truly Italian taste in every cup.

### Fresh beans – full aroma

Whole beans are freshly ground for every cup with ceramic grinders. And with groundbreaking technology we extract the complete aroma from every single bean.

### Fresh water – pure taste

The Syntia features an exclusive 4-stage water filter specially developed for Saeco by BRITA which ensures that pure crystal water is always available for brewing.

### Fresh milk – creamy enjoyment

The Syntia with pannarello makes milk froth dreams come true in no time.

Design/style

## Compact, classy and supremely stylish.

With the Saeco Syntia the enjoyment starts right when you unwrap it from its packaging. Thanks to its compact design and its stainless steel surface it will become a true jewel in your family kitchen.

### Compact design

A paradigm for modern compactness, the Saeco Syntia combines high-end functionality with sleek design. This narrow machine enables front access to all features so it fits wherever it's most convenient for you.

### Stainless steel

The Syntia's stainless steel precious finishing is not only robust, but it also has a modern and stylish look which perfectly adapts to every kitchen décor.

Easy & simple

## As easy as ordering at your favourite café.

The Saeco Syntia is not only a stand-out in terms of enjoyment, but also in terms of simplicity. From the preparation of your espresso to cleaning and maintenance – everything is relaxingly convenient.

### Easy-to-use

Short or long coffee with one touch, your favourite length easily stored with the memo option – it's all easy with the wide display and its self-explanatory icons.

### Telescopic coffee dispenser

No matter what your favourite glass or cup is – with one movement the telescopic coffee dispenser is adjusted to its size so the full taste and aroma is always perfectly captured.

### Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert – finished!

### Easy access

All machine elements you need to reach during your day-by-day enjoyment (water, coffee beans and coffee grounds container, drip tray, removable brewing group) are completely independent and reachable either from the front or from the top. So once your Syntia has its spot you won't have to move it around.

### Bypass doser

For those who like to enjoy a decaffeinated espresso for a change the Syntia is equipped with a bypass doser for pre-ground coffee – which is easily selected via the conveniently wide display.

## Family-friendliness

### Your family's new best friend.

The new generation of fully automatic coffee machines by Saeco including the Syntia has been specially conceived and designed to match family demands. Discover why the Syntia is a great addition to every family.

#### Energy Save

This feature keeps the power consumption to a minimum. In fact, less than 1 Watt per hour is needed in stand-by mode, automatic after 1 hour, saving resources and money.

#### Sound design

Special insulation and super-silent ceramic grinders preserve the peaceful kitchen atmosphere.
